DETAILED ACTION

Claim Objections

Claims 18-20 are objected to because of the following informalities: It is consisted of only a single step method 18, i.e. controlling discharge by transferring charge to electric motor without causing the motor to drive the motor. It cannot be determined how not to drive the motor just by transferring charge to it. Appropriate correction is required.

Allowable Subject Matter

Claims 1-17 and 21-24 are allowed.

Response to Arguments

Applicant's arguments filed 1/19/2006 have been fully considered but they are not persuasive. It is understandably that the claims are read in light of the specification. However the claim should be complete in and by itself.

Conclusion

This application is in condition for allowance except for the above formal matters. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
